**Miso**

A broth with a miso base. Miso is a paste produced by fermenting soybeans. It has a full nutty flavor and is a savory broth. For our miso ramen we use extra fine miso produced specifically for Takumi by Nishiyama Seimen in Sapporo.

**Shoyu**

A dark clear broth with a soy sauce base, a slightly sweet yet savory soup. For our shoyu ramen we use extra fine soy sauce from Nishiyama Seimen in Sapporo.

**Shio**

A clear broth with a salt base, the oldest type of ramen broth. By adding yuzu - an asian citrus fruit - it gets a slightly fruity, lighter taste. For our shio ramen we use salt from Shiretoko, natural heritage in east Hokkaido.

**Tantan**

A spicy soup based on miso, sesame paste and fermented black soybeans. For our tantan ramen we use extra fine miso from Nishiyama Seimen in Sapporo.

**Soup**

We serve our Ramen in a special soup made of homemade chicken broth and different kinds of vegetables like onions, napa cabbage, potatoes, carrots, garlic, ginger and konbu kelp from Hokkaido that is cooked for six hours.

**Noodles**

Noodles are the most important part of Sapporo style ramen. Our ramen from Nishiyama Seimen are ramen you would otherwise only get to eat in Japan.

**For our vegetarian and vegan guests:**

**Soup**

We serve our Ramen in a special soup made of different kinds of vegetables like onions, napa cabbage, potatoes, carrots and konbu kelp from Hokkaido.

**Noodles**

We use egg-free vegan noodles that go especially well with our vegan and vegetarian soups
